By: Syberpro

Intro

Hey guys! I'm going to show you some money methods I learned and which I found I would need to share with you guys I will try to make it as much noob friendly with a lot of images so you can understand as much as possible!

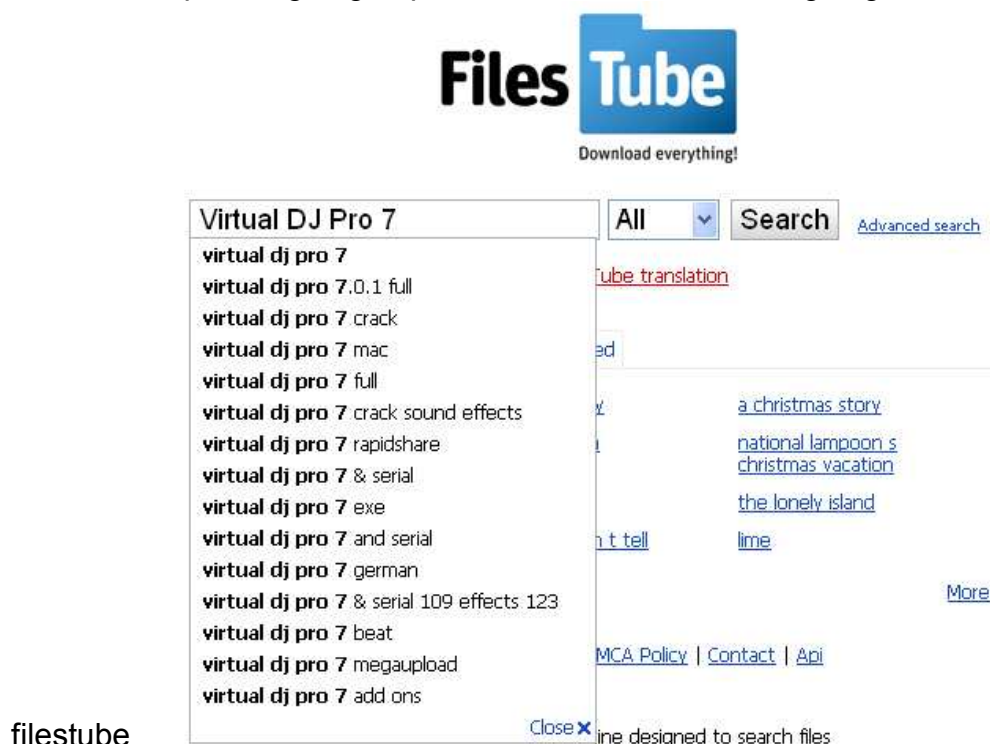

Let's Get Started!!

Method #1:

This method works with: Fileserve, FileSonic, and Hotfile ...

In this method I will use Fileserve:

1. You need to register Fileserve. If you would like to help me please register with <http://tiny.cc/fileserveref> if not just go and register to <http://fileserve.com>
2. Once you have registered here comes the part where you will make your money! Go to <http://www.filestube.com/> now your going to search a music/program/game that everyone would want you can use these sites to help you find what people are really looking for. (<http://thepiratebay.org/top>) & (<http://tiny.cc/amazontop>)
3. In this example I'm going to pick Virtual DJ Pro 7 so I'm going to search this on

4. Now click “Search” you should get plenty of results make sure on the side you check “Mediafire”

The screenshot shows the FileTube search interface. At the top, the search bar contains 'Virtual DJ Pro 7' and the dropdown menu is set to 'All'. Below the search bar, there's a section for 'Results for: Virtual DJ Pro 7'. On the left side, there's a list of file hosting sites with checkboxes. 'Mediafire' is highlighted with a red box and has a checkmark. On the right side, there are several search results for 'Virtual DJ Pro 7', including '[Full DOWNLOAD]', '[Verified] Virtual DJ Pro 7', and 'ATVID_7'. A 'Sponsored result' is also visible. At the bottom, there's a section for 'Also try:' with links to various Virtual DJ Pro 7 files and a link to 'ATVID_7'.

5. Find the program that seems to be legit go on the mediafire link (its does not mind if its more than 1 link , its actually better)Once you are the mediafire link right click “Click here to start download” and click “Copy link address” now you should have the direct link to download that file.

6. Head on to fileserve and click remote upload. Its right beside Split archives allowed (make sure you are logged in)

The screenshot shows the FileServe upload interface. At the top, there's a text input field for 'Select file to upload'. To the right of the input field, there are links for 'Remote upload' and 'Upload more files'. Below the input field, there's a checkbox for 'I agree to the terms & conditions'. At the bottom, there's an 'Upload' button. A red arrow points to the 'Remote upload' link.

Select file to upload | Maximum file size 1024Mb | Split archives allowed | Remote upload | Upload more files

7. Now you’re going to paste your link you’re copied in that big white box. Enter your login info and press submit (I actually had to use and other version on

Virtual Dj since all other links were dead)

Links to upload:

```
http://download1077.mediafire.com/9kd0bno6rnqg/sf1375326o9h8d2/Atomix_Virtual_DJ_Pro_v6.0.8.rar
```

Enter file urls in order to Remote Upload. One filename per line.
Please include HTTP:// or FTP://

To fetch other files from other password protected accounts, please put download URL as:
http://username:password@anotherfilehost.com/files/12323186/one.file.part4.rar
username:password is your login and password to either
1) your AnotherFileHost.com (http://AnotherFileHost.com/) account;
2) your htaccess protected HTTP destination
3) your ftp server

Alternatively, you can enter the username and password below

Password:

8. Once uploaded it should be in "My Files" Now get that download link and head on to <http://katz.cd/> try finding a popular warez forum usually forums with 5 stars are very active. I will use <http://www.platinumw.org/> now go and register to the forum and go in the right section: If it's a movie>Movie Section, If App > Application and so on... Make a thread post your fileserv link. In my thread I usually add in this format:

- ❖ Image
- ❖ Information
- ❖ Preview
- ❖ Download link

Notice: The more files you post + the greater the file + the more download you get the more money you get! Also the fun part about katz if the forum uploader decides to put

your thread in katz.cd you could get a lot of download like these:

HOME	SOFTWARE	GAMES	MOVIES	TV	MUSIC	EBOOKS	MOBILE	TEMPLATES	OTHER

Alright this is one method!

Method #2:

This method is one I tried recently! It works for a lot of people!

1. You will need a twitter account and a facebook account if you don't already you can make your twitter account <https://twitter.com/signup> and your facebook www.facebook.com/r.php
2. Once registered your both accounts go to and register your account on this site <http://mylikes.com/signup?token=elitel33t> if you don't want to help me go to the non ref link [here](#). Now login and you will see some products you can checkmark after than you will be taken to the main page looking a little bit like this

	Apple iTunes \$50 Gift Card Give the gift of entertainment. This \$50 gift card allows your favorite computer or Apple iPod user to buy music, movies and TV shows from the iTunes Store.	MAX PAY-PER-CLICK \$0.14 per click Like This
	Tl.com Treeliving.com - Planting the Seeds for a Better Future! Best Green portal on the web! Check out the cool videos, articles, sweepstakes and applications to help you make the switch to a greener lifestyle. Celebrities, basketball players, singers and actor are all ...	MAX PAY-PER-CLICK \$0.25 per click Like This
	Apple iPod shuffle 2 GB Silver (4th Generation) NEWEST MODEL	MAX PAY-PER-CLICK \$0.21 per click Like This

As you can see everyone who clicks your link you will get that amount of money! Isn't that great?

3. Now chose an offer you can handle then click [Like This](#) change the settings on the right as you like then click the big green button "Saves message"
4. Now that ad/message will be posted on your twitter and facebook each click will get you the amount you chose! You can post that link in your forum signature, tell friends, put on your site there is many possibilities. Remember! Do NOT tell in your message "Click the link below" or something similar.

Method #3:

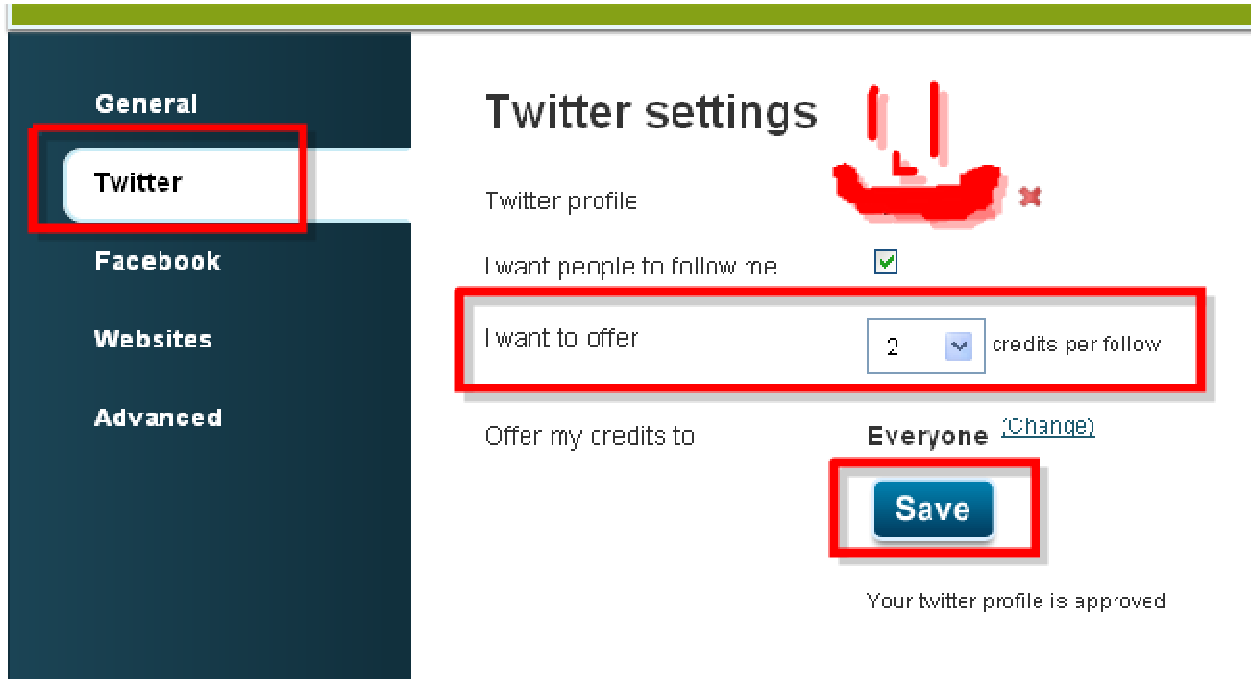

This method is not really making money but it might help for some of the methods you use. To get a lot of followers use this method.

1. Go to <http://twiends.com/?i=syberl33t> or if you don't want to help me: <http://twiends.com> and sign up! Once you sign up you will need to enter your interests I suggest you add these: YouTube, Google, twitter, facebook, and music. Now you will need to link your twitter with twiends link it and you will be taken to homepage which will look like next step
2. To earn its simple you will get a page like this

click “+twined button” each people earns you an amount of credits when you

get about 200 credits head on to the settings and do following

The screenshot shows the 'Twitter settings' interface. On the left is a dark blue sidebar with four tabs: 'General', 'Twitter', 'Facebook', 'Websites', and 'Advanced'. The 'Twitter' tab is highlighted with a red rectangular box. The main content area is titled 'Twitter settings' and includes a 'Twitter profile' section with a redacted profile picture. Below this, there is a toggle for 'I want people to follow me' which is turned on. A red rectangular box highlights the 'I want to offer' section, which contains a dropdown menu set to '2' and the text 'credits per follow'. Below this, the 'Offer my credits to' section is set to 'Everyone' with a '(Change)' link. A red rectangular box highlights the blue 'Save' button. At the bottom, a message states 'Your twitter profile is approved'.

3. Watch your followers grow! It's easy as that... Come back daily and earn credits to get more followers. The more credits you offer the more you will get faster since it will appear 1st in the search and people want more credits so they can get followers too.

Notice: You can also use this method to get some facebook page like and you can also earn credits in the Facebook tab.

Method #4:

Here is a method you can get money if you have a lot of followers

1. Make sure you have a twitter account with more than 50-100 followers your twitter account is older than 90 days and you posted more than 100 tweets then head on too <http://spn.tw/r4092>

2. Press the big signup button if you did not see it , it looks like xD then you will be redirect to a page you will need to click

and sign in with your twitter account then click allow.

3. Then homepage will look like

Step One: You've successfully signed up.

Step Two: You don't need to do anything else. Just sit back and wait for the offers to roll in. You will be Emailed when you receive a new offer. You can change this setting on your **my account** page.

(They had no tweets for me) I chose the option to get email when they got offers but basically they will post some tweets on your twitter and you will be paid for that its that easy and simple.
